Nautilus Industrial Marine is a San Diego ship repair, modernization, and fabrication company serving the fleet, research institutions, and industry since 2017. We are an active prime to the U.S. Navy’s Southwest Regional Maintenance Center and to the City of San Diego, and support naval, research, commercial, and municipal clients from our Chula Vista shop and aboard ship.

CORE COMPETENCIES

Metal Fabrication

In-shop and shipboard fabrication of components and assemblies, from one-off repair parts to production runs.

Qualified Welding

SMAW, FCAW, GMAW, GTAW, and GTAW pipe, performed by welders qualified to NAVSEA procedures, in the shop or aboard ship.

Electrical & Cable Pulling

Shipboard electrical work and cable-pulling supporting modernization and repair availabilities.

Machinery Services

Machinery repair and overhaul delivered through our vetted machining partner.

Structural Steel Manufacturing

Design-assist, cutting, forming, and erection of structural steel for marine and industrial applications.

Pipefitting

Shipboard piping repair, renewal, and new installation across hydraulic, seawater, and auxiliary systems.

Watertight Doors & Hatches

Fabrication, repair, and certification support for watertight doors, hatches, and closures.

Repair Availabilities

Shipboard work in support of Navy repair availabilities.

SOCIOECONOMIC

- Small Business
- Self-Certified Small Disadvantaged Business (SDB)
- Minority-Owned Business
- Hispanic American-Owned Business

PAST PERFORMANCE

U.S. Navy — Southwest Regional Maintenance Center (SWRMC)

Shipboard welding aloft and fabrication of a gyro cable clamp for ship’s force.

R/V Marcus G. Langseth · Columbia University
Restoration, service, and repair for a global-class seismic research vessel, since 2018.

San Diego SEAL Tours · Commercial
Fitting, fabrication, mechanical work, and refurbishing of an amphibious fleet, since 2018.

The Wave Water Park · City of Vista
Repair and refurbishment of railings and structural components.

DIFFERENTIATORS

- **Counts toward your subcontracting goals.** Small business, self-certified SDB, and minority-owned per SAM.gov.
- **Welders qualified to NAVSEA procedures.** SMAW, FCAW, GMAW, GTAW, and GTAW pipe, in the shop or aboard ship. SWRMC-approved procedures, including HY-100, available on request.
- **An active government prime.** Prime to SWRMC for Diving Support Vehicle service and repair, and to the City of San Diego for citywide welding services.
- **In the shop and on the waterfront.** Fabrication in our Chula Vista shop; shipboard and dockside work around San Diego Bay.
- **A crew that has stayed together.** Our core crew has worked aboard research and Navy vessels on both U.S. coasts, in Hawai’i, and in Guam.
- **Repair availabilities.** Shipboard work in support of Navy repair availabilities.

Welding procedure and qualification list available on request from contracts@nautilusindustrial.com.

OUR ROOTS

Founded in 2017 by Samuel Reyes Sr., whose San Diego ship-repair career began in the 1980s. Our core crew has worked together since the mid-2000s.
